

**Where in the World is California?**  
A Concert featuring  
Michael Morgan, conductor  
and  
Members of the Oakland Symphony

Maestro Michael Morgan and members of the Oakland Symphony are waiting to thrill you with the music of California. This music is from all over the world!

This year, our Young People's Concerts will explore a little California history and music of many cultures that call California home. We will be doing some travelling, so please get out your world map.

World geography is a fascinating topic!

We need to be explorers and historians to figure out where our families come from and how we ended up living here in California. Help students locate California on the map and then go on an adventure to find each one of the continents and countries we mention in the classroom music CD.

This packet of classroom materials will enhance the concert experience for you and your students.

Please listen to the CD with your students and share this printed information with your class. There are a few classroom projects in this packet.

Feel free to bring any musical instrument projects to the concerts and play along with the orchestra! We would love everyone to learn the words to "California, Here I Come" and perform the song with the orchestra as the grand finale of the concert.

We look forward to seeing and hearing you at our upcoming concert of ***Where in the World is California?***
