William	Harvey	TrumpetCornet		All Ages	All	Yes	Oakland	I started trumpet as a 4th grader at Malcolm X School in Berkeley. That was the start of my lifelong journey making music across the US and half way around the world then back to the East Bay. There are a lot of ways to play music and I'm proud to have experience performing in multiple styles. You can learn the fingerings and how to read music from any music teacher. But if you have talent and ambition, it is extremely important to study with an accomplished player who knows how to get a great sound pass on the accumulated knowledge of previous generations. Practicing is also important.
